

AcadionAI

If running your school feels harder
than it should...
it's time for a better way.

Welcome to AcadionAI

*Intelligent School Management,
Crafted for Real School Life.*

*A new generation of school
administration—powered by AI that
understands the way your
institution truly operates, adapts
to its rhythm, and supports the
people who run it every day.*

*Not just software, but a smarter
way of running a school.*

The Reality Schools Face Every Day

**Running a school
shouldn't feel like
constant coordination.**

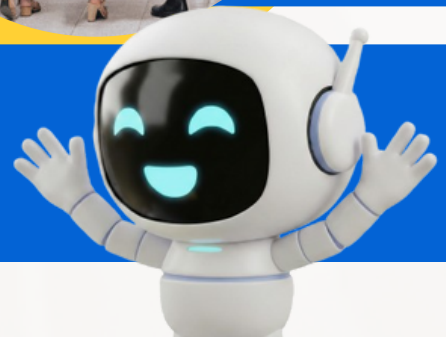

Yet every day, leaders face:

- endless meetings just to get clarity
- scattered updates and delayed information
- untracked spending that quietly exceeds budgets
- teachers overwhelmed with sudden changes
- parents feeling disconnected
- students missing opportunities to grow

Everyone is working hard...

but still not fully aligned.

There has to be a smarter way.

Built With Schools

Not Just For Them

We didn't start with features.

We started with people.

We sat with principals, accountants, teachers, parents, and students listening to what truly slows them down.

What we heard was clear:

- too much manual work
- too many dependencies
- tools that don't understand school realities
- no system that brings everyone together

AcadionAI was shaped by these conversations.

Every feature exists because someone needed it.

***One intelligent system that
understands your school.***

AcadionAI brings your
entire administration
together
an AI-powered platform
that supports your
institution automatically.

No more chasing updates
No more relying on endless
meetings.

*It analyzes what's
happening across the
school and helps you
respond quickly and
confidently.*

***The Smarter Way to
Run a School***

*Centralized. Intelligent.
Effortless.*

*Fair Schedules.
Less Stress.*

AcadionAI brings structure to one of the most demanding areas in school management—timetables.

Our intelligent scheduling creates balanced timetables that respect real classroom realities:

- preventing teacher fatigue
- placing core subjects at the right times
- ensuring availability
- handling proxies calmly

avoiding unfair last-period loading
And you stay in control—choose constraints, adjust schedules, and fine-tune as needed.
No more reshuffling. No more complaints.

Clear Finances. Accountability That Matters.

- shared budgets finally become transparent.

- Every expense is logged with proof, so petty cash doesn't quietly disappear.

- Everyone involved knows what was spent, why, and by whom.

- Clear. Accountable. Hassle-free.

With AcadionAI, academics run smoothly and finances stay on track—giving you peace of mind every single day.

Running a school

With AcadionAI, every insight you need is already prepared for you

**school-wide
performance
at a glance**

**class-level
strengths and
gaps instantly
visible**

**attendance,
academics,
participation
automatically
analysed**

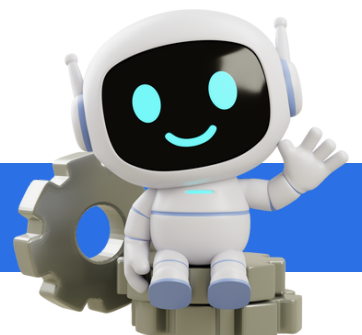

No more collecting
reports manually.

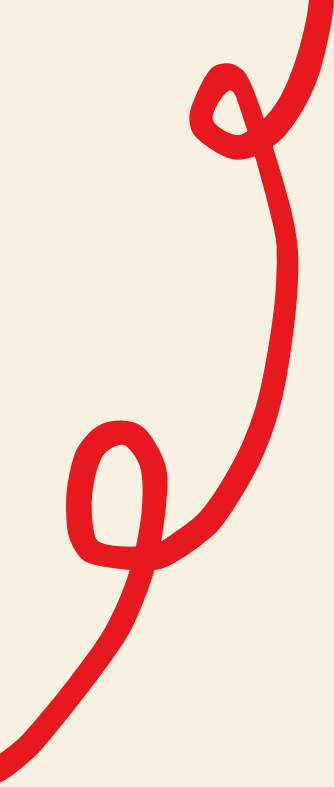

No more calling
teachers one by one.

No more waiting for
updates.

***AcadionAI brings the entire school's reality to
your dashboard***

*accurate, real-time, and effortlessly accessible.
So you can make decisions faster, support teachers better,
and focus on what
truly matters: improving student outcomes.*

Attendance Automation

- automatic processing
- instant parent alerts
- AI detects low attendance patterns

Targeted Communication

- no more WhatsApp chaos
 - messages reach the right people
 - automated reminders and updates
-

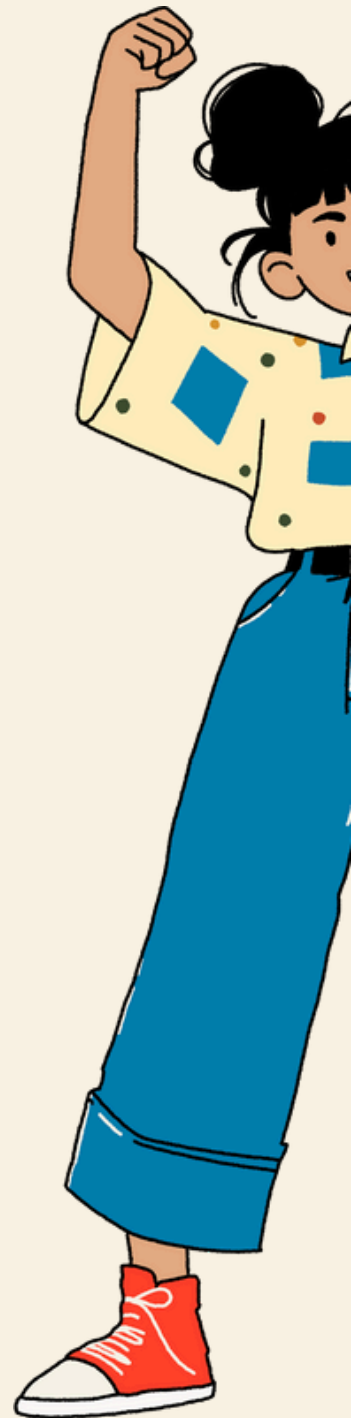

Seamless Fee Payments

- online payments with instant receipts
 - automated follow-up for defaulters
 - transparent tracking
-

Effortless Report Cards

- quick, accurate generation
 - consistent formats
 - parents access instantly
-

Clubs & Activities

- structured enrollment
- participation tracking
- increased student engagement

Achievements & Leaderboards

- recognise student talent
- encourage participation
- visible motivation for growth

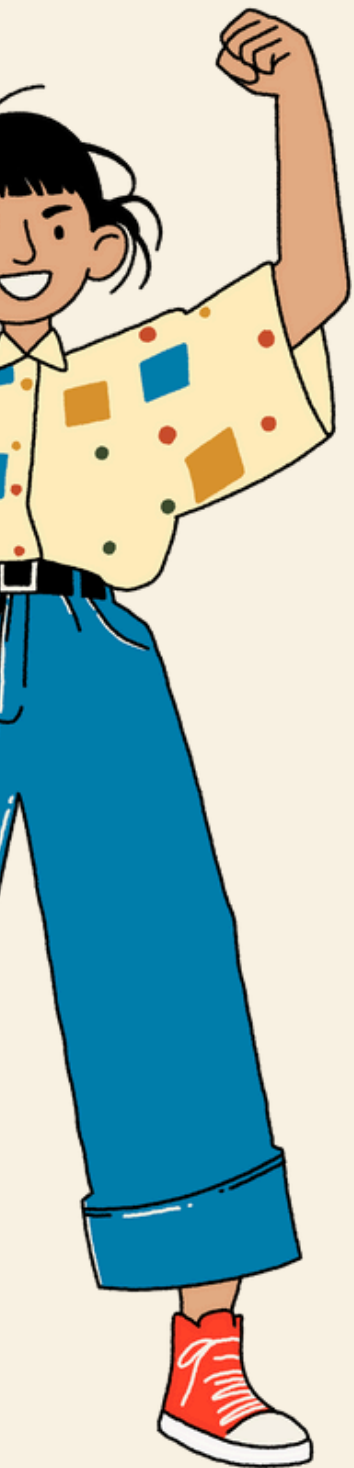

E-Commerce Store

- uniforms & books online
- easy ordering for parents
- streamlined school operations

Media & Albums

- share events securely
- organised memories
- stronger parent connection

And this is just the beginning...

Impact Across the School Community

Principals

- instant clarity without meetings
- smoother operations every day

Teachers

- fair, balanced timetables
- less admin, more teaching

Accountants

- transparent budgets
- clean, accountable spending

Parents

clear communication
easy payments & real-time updates

Students

- more participation
- recognition and motivation to grow

Every school is
unique and we'd
love to understand
yours.
If any of this feels
familiar, **let's talk.**

we're here to
support you.

**Let's Build a Smarter
School Together**

We'd be happy to walk you
through a personalised
demo and answer any
questions you may have.
